SECOND PRELIMINARY AMENDMENT

SIR:

Prior to examination of the above-identified application, please enter the following amendments.

IN THE CLAIMS:

Cancel claim 1 and add the following new claims:

2. A magnetic recording medium comprising a substrate, a magnetic film formed thereon and a protective film formed thereon for the protection of said magnetic film and composed mainly of carbon, wherein

said protective film comprises a boundary having a specific steepness between a CSS area of thickness A and a data area of thickness B, and

$|R2 - R1| < 5$, where R1 is a radial position at the end of the boundary in the direction of thickness decrease which corresponds to 90% of the thickness A and R2 is a radial position at the end of the boundary in the direction of thickness increase which corresponds to 110% of the thickness B.
